

Yagi Antenna

Product Description

This 12dBi yagi Antenna is used as a outdoor unit to couple the base station signal to inside the building.

Technical Specifications

Model No	370 224 12
Frequency Range:	890 - 960 MHz.
Peak Gain	12 dBi
Input VSWR	< 1.5:1
Polarisation	Vertical
Horizontal Beam width	50 deg
Vertical Beam width	40 deg
Radiation Pattern	Omni
Impedance	50 Ohms
Maximum input	100 W
Connector	N Female
Length	660mm
Weight	300 grams
Material	Aluminium
Mounting	Suitable for Pole Mounting
Finish	Black Powder Coated
Temperature Range	-20°C to +70°C
Rated Wind Velocity	125 miles / Hour
