

Product Features

- 106 MHz bandwidth
- No tuning required
- NMO Mount base

Description

The PE51006 antenna offers excellent bandwidth and low VSWR across the 406 to 512 MHz UHF band. The base and matching coil design is able to withstand high shock environments. The antenna mates with the popular NMO mount design. See the Pasternack catalog or website for the widest selection of NMO cable configurations.
